Pius X Girls Basketball – Individual Misc. Records

Records in this section are as complete and accurate as possible based on available information. Complete season statistics are available starting with the 1999-00 season, but prior to that season the only records available are those shown in the Lincoln Journal Star newspapers or the Pius X yearbooks. Year-end stats were published in the papers for some seasons and players making the all-state or all-city teams often had some of their season stats shown. Single game stat highs were mentioned in some game stories, although some that would make the lists below may not have been shown in the game stories. Career stats for many players prior to 1999-00 are not available because their season stats were not shown in the papers for all of their seasons. The three-point shot rule was implemented starting with the 1987-88 season.
